SOUND ADVICE Vol. 51: September, 26<sup>th</sup> 2008

Introducing Primare SPA22 5.1 Channel, Surround Sound Integrated Amplifier 100W X 5

If you're searching for the ultimate in Home Cinema Amps – great Sound with both Music & Movies – then the SPA22 is it.

You'd never know it by looking at its clean, non-intimidating front panel, but the new Primare SPA22 integrated AV amp houses all the features of a sophisticated Home Cinema Amplifier.

The SPA22 is a complete integrated audio/video processor/amplifier for those who value performance over gadgetry, convenience over complexity, living space over conspicuous display. A one-box solution to fulfill the demands of multi channel music or two channel music and movie sound. Furthermore, the SPA22 is built to serve as a whole house control system interface utilizing a standard RS-232 protocol and providing a wide range of inputs flexible enough to satisfy numerous AV source components and allowing for truly useful control and configuration, programming as well. The SPA 22 simply is a successful combination of finesse, cutting edge technologies and firepower. It meets the highest requirements for the playback quality of multi-channel and stereo music with flying colors.

SOUND ADVICE Vol. 51: September, 26th 2008

The SPA22 has a newly developed multichannel surround processor / amplifier in a single device with a newly developed UFPD amplifier for lower heat generation and improved performance. Its modular design allows the subsequent upgrade to True HD audio formats and 1080p switching / scaling - makes it so special, for future upgrades.

The SPA22 has 5 amplifiers, each with 100 watt output and provides an external interface for operation in 7.1 home theater installations.

## Overview

*High-end multichannel integrated home theater amplifier*

*High-quality components and build.*

*Newly developed UFPD amplifier for lower heat generation and improved performance*

*Crystal CS493200 DSP Series, 4 x 24-bit / 192 kHz Burr-Brown PCM1738 DACs*

*Decoder formats:*

*Dolby Prologic® II, Dolby Digital 5.1®, 6.1 Surround EX, DTS® Neo: 6, DTS® 5.1, DTS® ES 6.1, DTS® ES 6.1 discrete, 7.1 Surround EX, HDMI 1.3 interfaces*

*Modular design allows subsequent upgrade to True HD audio formats and 1080p switching/Scaling.*

*Video Switch: PAL / NTSC / HD-Ready*

*5 separate 100 watt amplifier / total capacity of capacitors: 100000µF*

*Bandwidth: <10 Hz - 100 kHz - 1 dB*

*Distortion: <0.07%, 20 Hz - 20 kHz*

*Signal Noise Ratio: 100 dB*

*RS-232 interface for integration into automated home theater concepts*

*Available in the colors black and titanium*
